**RULES AND REGULATIONS**

1. These rules and regulations are in addition to the rules of the Kentucky Public Service Commission.
2. Any resident or business of West McCracken Water District is eligible for water service from the District. The District will require that the prospective customer contract to use service for one (1) year or more and provide guarantee for such service if an extension of water main up to 50 feet is required for that service as per 807:KAR 5:006, Section 11 (1).
3. Water service will be terminated within 24 hours after receiving a written request from the customer requesting discontinuance. Request for discontinuance may also be made in person. Water service will be terminated by phone provided customer gives their Social Security Number. The West McCracken Water District Office Hours are: 1st thru 10th of month, 8:00 AM to 4:00 PM, then 11th thru end of the month, 8:00 AM to 3:00 PM, closed Saturday, Sunday and Holidays.
4. Customer complaints concerning the District's service should be made in person or by phone during the previously stated office hours. The next page contains the customer complaint form used by the District.

5. The District may require any applicant for service to pay a cash deposit to assure payment of bills. This deposit will be based on average bills of similar customers in the District. This deposit shall not exceed two-twelfths (2/12) of the estimated annual bill of such customer.

The District shall place the deposits in a special account where interest is allowed to compound. Interest gained on the deposits shall be refunded or credited to the customer's bill on an annual basis.

If the District retains a customer's deposit for more than eighteen (18) months, the District shall notify the customer in writing that, at the customer's request, the deposit will be recalculated every eighteen (18) months based on the customer's actual usage. If the deposit on account with the District differs by more than ten dollars (\$10.00) for residential customers, or more than ten percent (10%) for nonresidential customers, from the deposit calculated from actual usage, then the District shall refund any over payment and may collect any under payment by a credit or an addition to the customer's bill.

The District requires a customer applying for service to sign a Contract For Water Service. A copy of this Contract is contained on the next page.

6. All applications for service shall be accompanied by a Service Connection Charge in the following amounts:

For a 5/8" x 3/4" Meter - \$480.00  
For a 1" Meter - 583.00  
For a 2" Meter - Actual Cost  
For a 3" Meter - Actual Cost

**West McCracken County Water District  
Contract For Water Service**

This contract made and entered into this day \_\_\_\_\_ between \_\_\_\_\_,  
whose address is \_\_\_\_\_, WATER USER, and West  
McCracken County Water District, SUPPLIER. The WATER USER agrees to pay a tap-on fee of \_\_\_\_\_ or a transfer/reconnect fee  
of \_\_\_\_\_ and a deposit of \_\_\_\_\_ at the time of signing this contract.

For NEW meter installations, the WATER USER agrees to contract for service no less than one year, if a main extension is  
required. Twenty Four (24) hours notice must be given to the SUPPLIER whenever the WATER USER desires to discontinue water  
service. Following installation of the water service, the meter will not be installed and service turned on until the WATER USER has  
installed his service line and the SUPPLIER has completed an inspection of the service line. The WATER USER will receive a water bill  
beginning with the first billing period following installation of the meter.

The WATER USER agrees to permit the SUPPLIER to lay, maintain, repair, remove and disconnect a service line and meter, and  
read meters at a point on WATER USER'S property to be designated by the SUPPLIER for each signed connection with the right of ingress  
and egress on property. The WATER USER shall guarantee proper protection for the property of the SUPPLIER placed on the WATER  
USER'S premises and shall permit access to it only by authorized representatives of the SUPPLIER. Damages to the property of the  
SUPPLIER will be repaired at the expense of the WATER USER.

The WATER USER shall install and/or maintain at his own expense a service line which shall begin at the meter and extend to  
the dwelling or place of use. The WATER USER agrees to install a shutoff valve adjacent to the service as required by the SUPPLIER.

The WATER USER agrees to comply with and be bound by the Articles, Bylaws, Rules and Regulations of the SUPPLIER, now in  
force, or as hereafter duly and legally supplemented, amended or changed.

The WATER USER agrees to claim no damages due to loss of flow or pressure when such loss is necessary to make alterations,  
repairs or improvements.

The WATER USER agrees not to interconnect a private or other water system with the lines supplied by the SUPPLIER.

Nonpayment on or before stated due date will result in a penalty of 10% of the delinquent amount. Nonpayment within twenty  
days of the mailing date of the bill will result in water being shut off from the WATER USER'S property. Notice will be sent, by mail, to  
the WATER USER concerning this penalty. In the event it becomes necessary to discontinue water service, due to nonpayment, a fee will  
be charged for reconnection of the service. The WATER USER will also be required to pay all delinquent accounts and the original deposit  
paid may be increased. The WATER USER understands the SUPPLIER is not responsible for mail deliveries.

13. The District shall in no event be held responsible for any claim made against it by reason of the breaking of any mains or service pipes or by reason of any other interruption of the supply of water caused by the failure of machinery or stoppage for necessary repairs or other reasons.

No person shall be entitled to damages nor a payment refund for any interruption of service which, in the option of the District, was deemed necessary.

The District shall make all reasonable efforts to eliminate interruptions of service, and when such interruptions occur, service will be re-established with the shortest possible delay. When service is interrupted, all customers affected by such interruption will be notified in advance whenever possible.

14. Meters are read each month beginning on or about the 20th day of the month.
15. Customers are billed each month on the first day of the month.
16. Bills are payable on or before the 15th day of each month. If bills are not paid within 15 days of date of billing, a penalty of 10% of the bill shall be added. Service will be discontinued if bills are not paid by the 20th day of the month. Five (5) days written notice will be given to customers before service is discontinued. An extension of 30 days is given a customer for an unpaid bill if a case of hardship is indicated.

A fee of \$20.00 shall be required to re-establish discontinued service during office hours. A fee of \$35.00 shall be required after office hours, holidays and weekends. This includes re-establishing service which was voluntarily discontinued and re-establishing service which was disconnected for nonpayment of bills. The District shall require payment of all delinquent water bills including penalties, in full before reconnection is made.

I understand that adjustments are figured by the difference between my average bill and the bill that reflects the leak. The adjustment is then based on West McCracken Water District assuming 50% of the loss and I am responsible for the other 50% of the loss plus my average bill. I further understand that even though an adjustment is to be considered, I am still responsible for the bill and that should I be disconnected for nonpayment, the entire amount plus \$20.00 reconnect fee must be paid before service will be restored and any adjustment made will be credited to my account.

I also understand that during the lifetime of my water service line, only two leak adjustments will be permitted. Each of these adjustments may cover a maximum of two billing periods. Before a third adjustment can be considered, the entire water service line from the meter box to my house or structure must be replaced and that I must submit evidence of this fact before the third adjustment is given. If plastic pipe is used for any repair of underground water service lines, it must be no less than class 160 P.S.I., either C.T.S or I.P.S. pipe. THE USE OF RADIATOR CLAMPS, KING NIPPLES, OR THE EQUIVALENT CANNOT BE ACCEPTED.

I realize that no adjustment will be made until this form (completed in its entirety, signed and dated) and my plumber's statement are returned to West McCracken Water District.

I hereby verify that I have read the information given above and that all statements are true and correct and that the excess usage in my plumbing system has now been corrected.

D. Other Combinations

Multiple service for a permanent single family residential dwelling in combination with one trailer home not otherwise classified as a commercial trailer park may be served from a single meter. The minimum rate shall be the approved minimum rate for the meter size in use.

21. Extension of Main

A. Normal Extension.

An extension of fifty feet or less along an existing road shall be made by the West McCracken Water District to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one year or more and provide a guarantee for such service.

B. Other Extensions.

(1) When an extension of the West McCracken Water District's main to serve an applicant or group of applicants amounts to more than fifty feet per applicant, the District may require the total cost of the excessive footage over fifty feet per customer to be deposited with the District by the applicant or the applicants, based on the average estimated cost per foot of the total extension. Cost of the total extension shall be established from accurate records of construction cost by the District, including materials, labor, supervision, engineering, testing, disinfection, water and such other cost incurred by the District and made available to the applicant or applicants receiving service.

**WITNESSETH:**

Whereas, the Developer desires the extension of certain water mains of the District, and,

Whereas, the District is agreeable to the extension of the water mains as hereinafter set out,

NOW THEREFORE, in consideration of the mutual agreements and covenants set out herein, is agreed  
between the parties as follows:

**SECTION I-EXHIBITS**

The Developer hereby agrees to construct a water main in accordance with the requirements of the  
District which are filed herewith and made a part hereof, and more specifically designated as follows:

Exhibit "A". The current Rules and Regulations for extension of service of the West McCracken Water  
District as filed with the Public Service Commission.

Exhibit "B". Plans and specifications detailing the location and method of constructing the main extension, prepared by a professional engineer and meeting the requirements of all applicable approving agencies and the West McCracken Water District.

Exhibit "C". A right-of-way map showing the property lines and names of property owners with a continuous and permanent utility easement of not less than fifteen (15) feet in width: which easement shall be secured and recorded, by the Developer, in the office of the court clerk.

Exhibit "D". An itemized estimate of construction, engineering, and testing costs as prepared by a professional engineer in the total amount of \$ \_\_\_\_\_.

#### SECTION II-DEPOSIT

An advance deposit of \$ \_\_\_\_\_ by the Developer to the District is required. The advance deposit shall be used by the District to offset all expenses incurred during plan development and review. If the project is canceled or at the completion of construction, the unused balance of the advance deposit shall be refunded to the Developer.

## WATER SHORTAGE RESPONSE PLAN

### West McCracken Water District

Section 1. Purpose. The purpose of this plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the West McCracken Water District in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the West McCracken Water District water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the West McCracken Water District.
- (c) "Treated Water" shall mean water that has been introduced by the West McCracken Water District into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

#### Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

##### Domestic:

- water necessary to sustain human life, the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

##### Health Care Facilities:

- patient care and rehabilitation, including related activities and operation of swimming pools.

##### Water Hauling:

- sales of domestic use where not readily available elsewhere.

##### Public Use:

- firefighting
- health and public protection purposes, if specifically approved by health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically Important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes
- laundromats
- restaurants, clubs and eating places
- schools, churches, motels/hotels and similar commercial establishments

Outdoor Non-Commercial Watering:

- minimal watering of vegetable gardens
- minimal watering of trees where necessary to preserve them

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock
- water by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens
- watering by commercial nurseries at a minimum to maintain stock
- watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation
- watering of woody plants where necessary to preserve them

Air Conditioning:

- refilling for start-up at the beginning of the cooling season
- makeup of water during the cooling season
- refilling specifically approved by health officials where the system has been drained for health protection or repair services

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials

Commercial and Civic Use:

- serving water in restaurants, clubs or eating places, except by customer request
- failure to repair a controllable leak
- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial ponds

Outdoor Non-Commercial Watering:

- use of water for dirt control or compaction
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas

PUBLIC SERVICE COMMISSION MANAGER

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

- (h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this plan shall apply to all retail and wholesale customers of the West McCracken Water District. When implemented, this plan becomes the West McCracken Water District's Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Board of Commissioners.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Board of Commissioners of the West McCracken Water District.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

1. Criteria: A water advisory shall be declared when the demand reaches 90% of the amount of projected available treated water or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the West McCracken Water District draws water.
2. Conservation and Curtailment Measures:
- (a) Declare a Water Shortage Advisory
  - (b) Provide proper notice to all customers and to all local news media
  - (c) Eliminate all water leaks
  - (d) Request voluntary conservation of all non-essential (Class 3) water use

  - (b) Provide proper notice to all customers and to all local news media
  - (c) Eliminate all water leaks
  - (d) Prohibit all Class 2 and Class 3 uses of water
  - (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%
  - (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage
  - (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
  - (h) Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$15.00 per 1,000 gallons.

Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this plan, who fails to carry out the duties and responsibilities imposed by this plan, or who impedes or interferes with any action undertaken or ordered pursuant to this plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured or abated immediately or within 48 hours.

- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.
- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this plan.

Section 9. Request for Exception.

- (a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the West McCracken Water District for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.
- (b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this plan is declared invalid by the courts, the remainder of the plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This plan shall take effect immediately upon approval by the Public Service Commission.
